**NEW!**  
SOFA SYSTEMS

---

**SYSTEM I**

# SYSTEM I

**Sofy systems** – consisting of individual elements/modules – from which individual configurations can easily be created to make use of any given space. And providing flexibility - by simply changing the layout to suit any need.

## Features of the System I:

- quick and flexible deliveries
- optimum logistics
- simple assembly/disassembly
- easy storage

In the collection (SYSTEM I) there are models available **Dandy** & **Salve**.

## FUNCTIONALITY

---

An infinite number of sofa and corner unit configurations can be created from the modules. And change them as required!

# Dandy

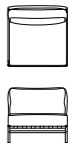

**CORNER MODULE**

78 x h68 x 78 cm

**BACKREST MODULE**

78 x h68 x 78 cm

**ARMCHAIR**

78 x h68 x 78 cm

**POUFFE**

78 x h42 x 78 cm

# Salve

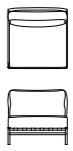

**CORNER MODULE**

78 x h68 x 78 cm

**BACKREST MODULE**

78 x h68 x 78 cm

**ARMCHAIR**

78 x h68 x 78 cm

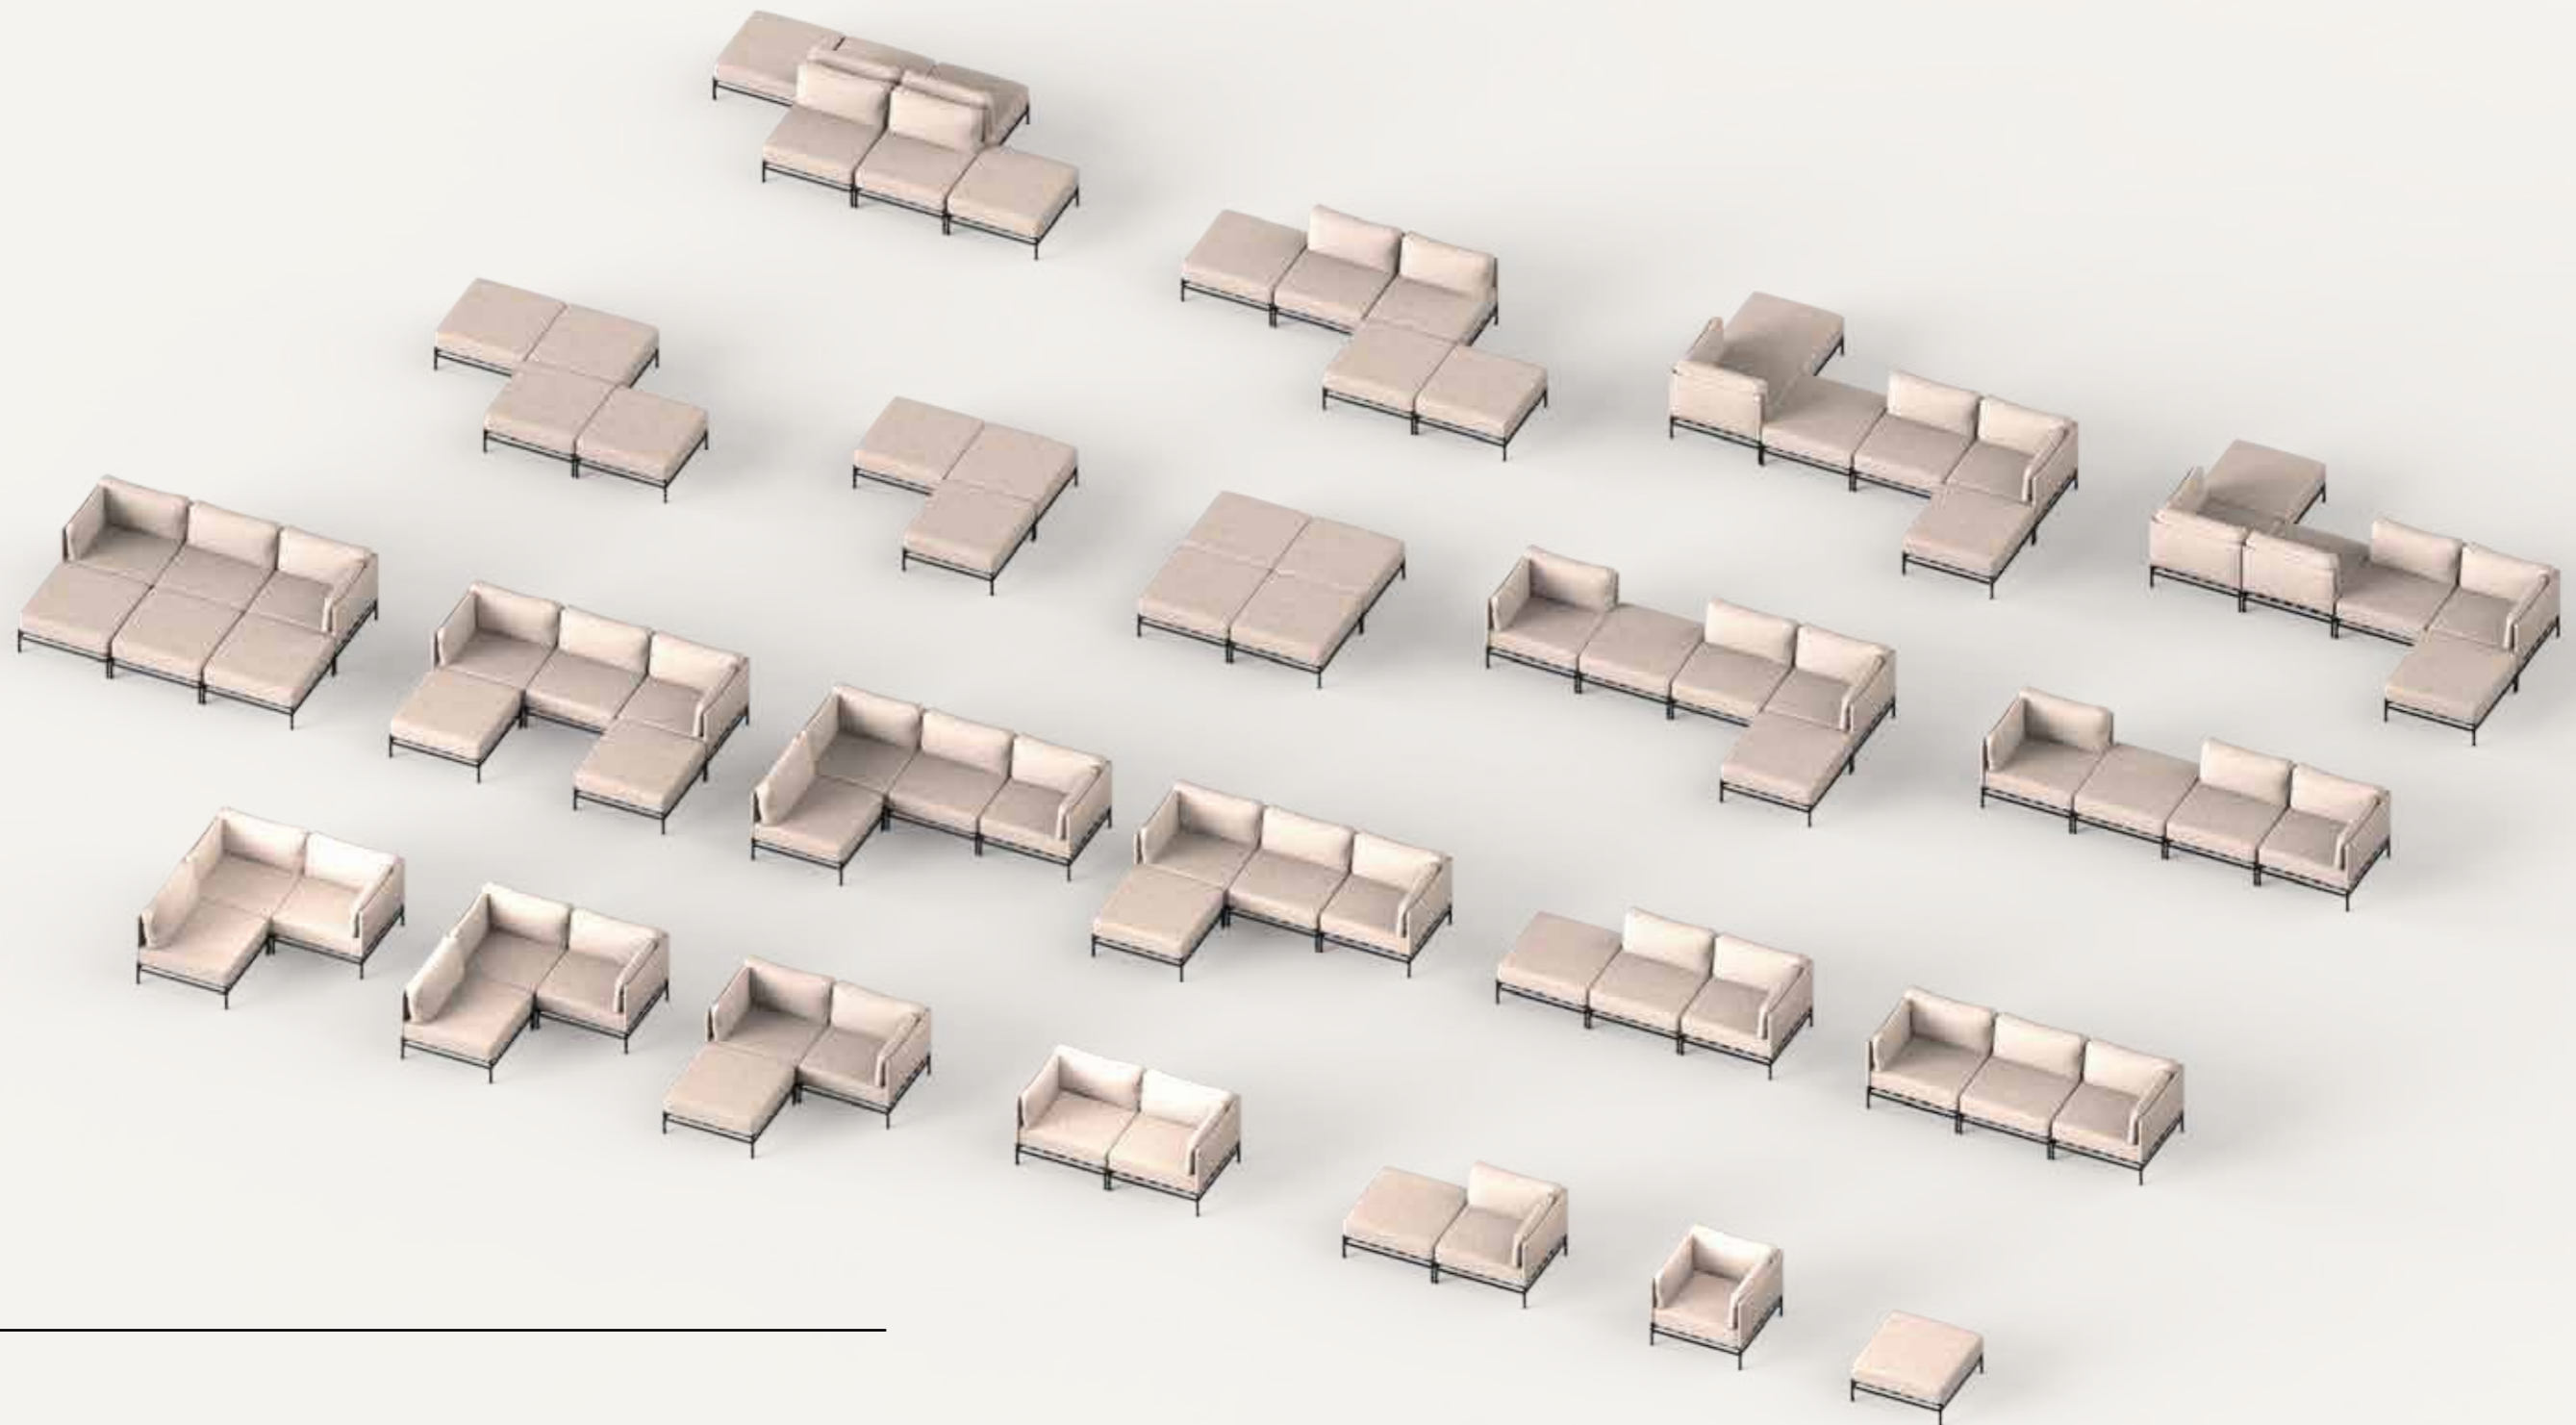

**POUFFE**

78 x h42 x 78 cm

# FUNCTIONALITY

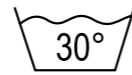

---

As each element is a separate module, they can be set up and arranged freely as well as rearranged. And in the event of damage, a single module can be replaced, not the entire piece of furniture.

# SIMPLE ASSEMBLY

Each module is packed in a separate cardboard (one person can carry it). Assembling the furniture is simple and intuitive. And after the season, the furniture can be easily disassembled and conveniently stored. All covers are removable and washable at 30°C.

# LOGISTICS

---

- more furniture in one shipment
- easy storage
- cheaper delivery to the end customer
- flexibility of delivery
- short delivery times
- manufacture in Poland

- black carrying straps alternately braided (decorative element)

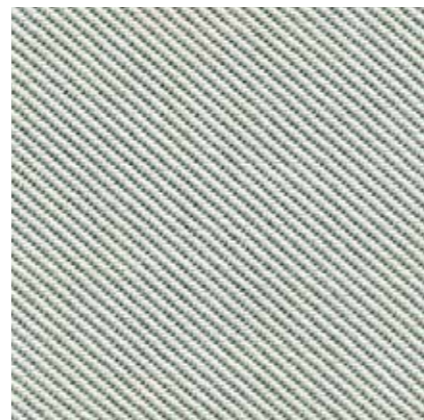

- soft cushions for a comfortable rest

- high quality of workmanship

DESIGN & COMFORT

Both models – **Dandy** & **Salve** – available in different colours. Their covers are made of outdoor fabrics that withstand the whims of the weather very well. The fabrics are dyed in the mass, so they are resistant to UV fading and retain their colours for many years. Fluorocarbon coated – repels water (moisture protection). Mould and stain resistant.
